# Ralph Almonor

786-985-1171
ralphalmonor4@gmail.com
simplyyralph.github.io

## OBJECTIVE

Seeking a full-time entry level front-end software engineer position

## TECHNICAL SKILLS

**Languages**

- HTML5, CSS3, JavaScript (ES6), Python, C++
- Familiar with: MySQL, PHP

**Libraries & Frameworks**

- React, jQuery, Bootstrap 5
- Familiar with: Node.js, Express

**Tools**

- Git, GitHub, Chrome DevTools, Command Line, Bash

## EXPERIENCE/PROJECTS

**AirBnb Clone - simplyyralph.github.io/AirBnb**                     2022

- Made this clone using purely HTML and CSS, just to get a better understanding the semantic tags in HTML5, and to reinforce naming and styling patterns for CSS. I also used the Google map API to place the map.

**Command Hack**                     2021

- A command line application that generates a ReadME markdown file. It was made to streamline the task of making mark down files to explain a project. In this project I used JavaScript, NPM: Inquirer, Node.js

**Screen Share**                     2021

- Using desktopCapture API to capture the contents on the screen this project allows the user to put any current screen into picture-in-picture mode. Aided me in studying efforts. I used HTML, CSS, and JavaScript.
